Liner: 92.5 lb polycoated layflat, backside coated for enhanced print receptivity
Tear Strength MD: 90 ± 20 grams
CD: 150 ± 20 grams

GENERAL: AB-575S PSA Satin Badge is a laser-printable satin acetate fabric laminated to an acrylic PSA that is safe for apparel items. The adhesive bonds firmly to a variety of textiles, but also removes cleanly without leaving residue or staining. The product construction includes a backside printable, 92lb polycoated silicone liner. The liner can be supplied with or without score cuts.

This product is recommended for digital or laser printers that are rated for heavier specialty substrates. This product will not process well in smaller desktop laser printers.

Recommended

Printing Methods: Laser (Dry Toner), Dot Matrix, Hot Stamping, and other impact-style print methods.

ALL VALUES SHOWN ARE AVERAGE VALUES OBTAINED FROM COMMERCIAL PRODUCTION. THEY ARE INTENDED AS A GUIDE TO PRODUCT PROPERTIES AND NOT TO BE REGARDED AS SHIPPING SPECIFICATIONS.
